CS Undergraduate | Full Stack Developer | Open Source Contributor  
| Tech Enthusiast  
Galle District, Southern Province, Sri Lanka

## Summary

I'm a Computer Science undergraduate with a strong interest in full-stack development and a deep obsession with technology. I've been deeply and genuinely passionate about computers since my school days, with a strong interest in building solutions for real-world problems. I enjoy building things that combine design and engineering, where clean systems meet thoughtful user experiences.

I'm actively involved in open-source, enjoy working in teams, and often step into leadership and problem-solving roles. I like taking on challenges that push me beyond my comfort zone and help me grow faster. In the long term, my goal is to build my own startup and create technology-driven solutions that make real impact.

---

## Experience

Thambapanni Designs  
Former Graphic Designer  
2024 - 2025 (1 year)

Web Team MCG  
Graphic Designer  
2022 - 2025 (3 years)

Mahinda College Web Teams is the Sri Lanka's first school webcasting crew purely handcrafted by students of Mahinda College. As a Graphic Designer of it, I created visual content posts for school events and announcements. Collaborated with design committee to maintain college brand consistency across digital platforms.

Freelance  
Freelance Graphic Designer  
2022 - 2025 (3 years)
